

Notice: Responding to COVID – 19

Effective March 17, 2020 - International Bank of Chicago will follow the guidance of the Centers for Disease Control and Prevention (CDC) to make sure that COVID-19 does not expose further. Our branches are operating with normal business hours with restrictions on lobby traffic to follow guidelines for social distancing designed to protect public health. We are sanitizing our locations by routinely wiping down all hard surfaces in the branches and drive up windows and night deposit terminals.

Restricted Lobby Access: Lobby areas at all branches will be closed to the public based on requests for social distancing to help protect high-risk groups as defined by our public health officials. All locations will remain open to serve clients only through the drive-up windows, the night deposit terminals and via telephone.

Branch Closures: When we are made aware of potential direct exposure to the virus, that location may be temporarily closed to undergo deep cleaning. In some cases, a branch may be closed for longer periods related to the inability to safely conduct transactions and maintain social distance between clients and our employees.

Other Ways to Bank with Us: As we work through this National Emergency, we encourage our clients to use Mobile and Online Banking. If you need assistance via phone, please call your local branch for assistance.

We truly appreciate your business, thank you for your understanding as we work through this period together. Please visit our website for further updates,
